

Responses on LF Inquiry	Chittenden Solid Waste District	Central Vermont Solid Waste Management District	Addison County Solid Waste Management
	No. CSWD has 7 Drop-off centers. A Drop-Off Center could be located in Bistol subject to CSWD Board approval.	No.	Would need to have site and hauler. Contract maybe.
Would we be required to hire a hauler for a central point scheduled pick up?	Drop-Off centers.	?	Part of joining negotiations.
Could Bristol join prior to 2016, but continue to operate thru 12/31/2016	Have limited scope to Chittenden County towns currently. More appropriate to join ACSWMD? CSWD doesn't have a transfer station, only Drop-Off centers.	Waste materials in the CVSWD are taken to Casella (CSW) facilities. Municipalities make their own arrangements with CSW.	Every person ...shall separate solid waste, mandatory recyclables, special waste and hazardous waste.
Misc.			Bristol would need to provide for a central contracted hauler pickup location.
			District will inspect loads for violation of rules no less frequently than every 40th trip.
