

Selectboard Members present: Chair Brian Fox, Sharon Compagna, John "Peeker" Heffernan, and Michelle Perlee. Also present, Road Foreman Peter Bouvier, Town Administrator Therese Kirby and driver Lucy Kimball.

At 3:30 pm Brian Fox called the meeting to order. The Selectboard met at Holley Hall, boarded the bus at Howden Hall, and then were returned to Holley Hall. The Selectboard looked at the following locations:

1. Saw the quilt at Howden Hall that was recently donated.
2. Looked at the intersection project.
3. Discussed paving from South Street to Hewitt Road Bridge. Peter received a quote from Pike for \$37,715 and there are two culverts to be changed.
4. To pave from Hewitt Road to the base of Tatro Hill, Peter received a quote of \$34,000. Peter is not aware of any culverts to be replaced.
5. Peeker Heffernan suggested paving from High Bridge to Carterville Road in the future. It would require some ditch work and two or three culverts.
6. Discussion regarding paving from Evergreen Drive to Fred Johnson Drive on the Lower Notch Road. There is a lot of work to be done in that area including tree removal, widening the road, culvert installation and ditching.
7. The Town received a grant to assist with paving .88 of Burpee Road. It will be grinded, raised up 8" to 10", then paved.
8. Peter will speak to Tim Heffernan regarding the bank and ditch near her driveway.
9. The Board looked at Horn Hill on Meehan Road, the work the road crew did last year.
10. Peter would like to pave Meehan Road near Paul Davis's house next year. It is approximately  $\frac{3}{4}$  of a mile, would need to be dug out, base added, then paved.
11. The Board looked at the wash out across from Martin's Hardware. Peter and Therese explained we will be getting a quote on soil nailing as the repair process recommended by the State.

Michelle Perlee moved to adjourn at 6:15 pm. Sharon Compagna seconded. So voted.

Respectfully Submitted,

Therese Kirby  
Town Administrator
