Subject: SFY2019 CWSRF Priority List Bypass Notification- Town of Bristol

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Ms. Capels,

This email serves as notification that the Clean Water State Revolving Fund (CWSRF) Program is bypassing the Town of Bristol’s Wastewater Treatment and Disposal System Upgrade construction project on the SFY19 Project Priority List. The basis for this determination is that a Preliminary Engineering Report (PER) for the project was not submitted by December 31, 2018 as required. Planning funding remains available for your project.

The Town of Bristol is encouraged to apply for the SFY20 Project Priority List for construction during the 2020 construction season (7/1/19 to 6/30/20). We will begin soliciting for applications to that priority list on January 15, 2019.

We also urge Town of Bristol to take advantage of the CWSRF’s generous planning loan terms and additional subsidy. This program includes loans for asset management, feasibility studies, preliminary engineering, and final design. At this time, planning loans are 0% interest and 0% administrative fee and no payments for 5 years. We also are offering additional subsidy, in the form of loan principal forgiveness, of 50% of planning costs up to \$100,000 per project. The additional subsidy is finite, and is provided on a first-come-first-served basis until it has been expended.

Please let me know if you have any questions or comments.

Sincerely,

Thomas Brown
CWSRF Program Lead
